Games were played and a good time generally was had. Refreshments were served and the little hostess received many useful gifts as well as gifts of money. The affair was a grand success.

MOONSHINERS SHOT OFFICER WHILE ASLEEP

Deputy Farley of West Virginia Killed
As He Lay in Bed at His
House.

Charleston, W. Va., Aug. 12.—Deputy Will Farley of the state prohibition department was shot and killed by three moonshiners as he lay in bed at his home on Dart's creek, near here, Monday night, according to reports received here yesterday afternoon by W. S. Hallinan, state prohibition commissioner. Farley's wife, who was asleep in the bed beside him was uninjured.

The shooting followed a raid by Farley and Deputy M. S. Johnson on Hoover creek Monday afternoon. The officers seized a still, dismantled it and took it to Farley's home. According to reports received here the moonshiners, three in number, later went to the Farley home, broke in and opened fire as Farley lay asleep in his bed. Johnson, who was in another room fired at the assassins, but they escaped.

A posse was organized early yesterday and started in pursuit of the moonshiners, who are believed to have fled toward the Kentucky border.

DEMAND 5-DAY WEEK; \$1 HOUR

Interior Decorators of New
York City Out on
Strike

TIME OF THE STRIKE
SET AHEAD TWO DAYS

Thousands of Tenants Are
Waiting for Work
to Be Done

New York, Aug. 13.—Interior decorating, so essential to renovating of hundreds of houses being repaired for October leasing came to a standstill today by the strike of 14,000 painters, decorators and paperhangers.

At a meeting, the strike committee of the New York Brotherhood of Painters, Decorators and Paperhangers decided to advance the date of the strike originally announced for Friday and ordered the men to quit work last night and not return today.

The workers demand a five-day working week of forty hours, with a wage of \$1 an hour. They have been receiving \$6 a day for 44 hours per week.

August is the beginning of the rush season in the painters' trade. Apartments have to be redecorated for fall occupancy and new apartments prepared for October leasing. During the war little renovating was done on account of shortage of help, and thousands of tenants have been waiting for this time to have their homes refurnished.

FAVORS ARMY OF 225,000.

Adjutant General H. T. Johnson Opposes
Chamberlain-Kahn Army Bill.

Editor, Barre Times: I am sending you herewith sections 9 and 24 from the Chamberlain-Kahn universal military training bill for your information and comment thereon if you deem it advisable.

These sections, in my opinion, should be brought to the attention of the people of the state. Section 9 provides for conscription of youths of 19 into the regular army or navy for one and one-half years in times of peace and they could then be sent to any part of the world that the United States sends its troops. I do not believe that the people of Vermont want any such bill as this enacted into law. I do not wish to be understood as opposing universal training, for I am a firm advocate of a compulsory military training act. I believe that universal military training is a necessary step toward adequate national preparation and for the proper development of the citizen soldier of the nation, but this section of this bill goes way beyond the necessities and savors too much of German militarism to suit the people of this country. Section 24, dealing with the National Guard, is a step backward and is an attempt evidently to belittle the National Guard and relegate it to the status of a purely state police force and as this branch of the service proved beyond any question its value to the nation in the past war, every effort should be made to strengthen it in the future as upon this branch of the army the nation would have to depend in the first shock of sudden conflict.

There was introduced on Aug. 5 by Mr. Wadsworth what is known as the Baker bill, which combines the army reorganization bill and a universal military bill. This bill provides for a very safe and sane universal training act, it seems to me as the objectionable feature of the Chamberlain-Kahn bill, section 9, is eliminated, and it provides for three instead of six months' training. However, this bill provides for a regular army, which it seems to me is double the size necessary in times of peace, for this or any other country can never hope to maintain in peace times an army of sufficient size to handle the situation in case of war.

It would have to depend, as it always has, upon an army of citizen soldiers, therefore the regular army need be maintained only of sufficient size to properly police the United States and its possessions and to furnish instructors for the training of the citizen soldier.

The estimate of the cost of our army under this bill is \$900,000,000, which is nearly four times the cost of our regular army prior to the war.

I would therefore urge that you study these two bills and advocate the passage of the saner Baker bill with the size cut to approximately \$25,000, for I believe this more nearly represents the desires of the people of this state as well as the country at large.

H. T. Johnson,
The Adjutant General.
Chamberlain-Kahn Bill.

Section 9. In case voluntary enlistments shall be insufficient to maintain the regular army, navy or marine corps at the numbers from time to time required by law, then so many men as may be necessary to maintain the regular army, navy and marine corps at such numbers may be selected, pursuant to regulation, from among the men completing their training period, and the men so selected shall serve in the army, navy or marine corps for an additional period of one year. The number so selected from each state or territory shall bear, as nearly as may be, the same proportion to the whole number of men that state or territory serving for training purposes during the last preceding calendar year bears to the whole number so serving during such calendar year.

Section 24. That the National Guard, active militia and naval militia of the several states may be called forth by the president only to execute the laws of the union, suppress insurrections or repel invasions, and shall not be required to serve outside of the territorial limits of the United States or for more than three months in any one year.

Conditional.

Beau Brummell shaved serenely on

BEAU BRUMMELL who "taught Wales what a coat was like"—inventor of numberless niceties of dress—gambled himself into poverty. Publicly cut by the King, he had his last remaining finery laid out preparatory to seeking a friend who might save him from disgrace. With Weston, his faithful valet, keeping the door against the bailiffs, the great beau shaved serenely on. Prince of the Dandies to the last, he finished the job with the utmost care. Then, carefully wiping dry the precious blade and affectionately placing it in its case, he turned to Weston with the command: "Now let the rogues in."

The razor that Beau Brummell used was a shaving tool of wonderful balance. Length, temper and correct diagonal stroke were there; all it lacked was the safety and convenience of the double-edged, detachable blade of the

RAILROADS "GAVE AWAY" MILLIONS

Then Paid Millions More in Dividends on
Gift Bonuses, Declares Glenn
E. Plumb.

Washington, D. C., Aug. 13.—Charges that 18 representative railroads operating in all parts of the United States gave away stock bonuses aggregating \$450,440,000 from 1900 to 1910, and have paid millions in dividends on these bonuses, were made before the House interstate commerce committee by Glenn E. Plumb of Chicago, author of the Plumb plan for tripartite control of the roads.

Mr. Plumb charged further that "these railroads, which have so increased their property investment account at the expense of the public, are now controlled in whole or in part by the Morgan interests, the Rockefeller interests and the Gould interests."

"On behalf of all of the employees of these systems of transportation and the public," said Mr. Plumb, "we demand that Congress shall make a thorough investigation of the charges herein set forth, so that the American people may know to what extent it is sought to subject them to exploitation under the plans proposed to this committee of Congress, plans which would make lawful the fixing of rates based on the now lawful aggregate property investments accounts of these systems."

Specifically, Mr. Plumb charged that the Chicago, Burlington & Quincy, the Chicago, Milwaukee & St. Paul, the Chicago Northwestern, the Great Northern, the Illinois Central and the Southern Pacific gave away in bonuses to their stockholders more than \$250,000,000 during the 10-year period mentioned, and that "the actual dividend disbursements on this excess capital for the year 1913 alone amounted to more than \$11,000,000."

He also alleged that the Pennsylvania, Baltimore & Ohio, New York, New Haven & Hartford, New York Central & Hudson River railroad, Boston & Maine, and the Delaware & Hudson companies issued new stock for \$101,000,000 less than its market value, or gave away this enormous amount in bonuses to stockholders, and that "the dividends paid on these fictitious stock issues in 1913 alone amounted to over \$4,317,000."

Polarine

The Garage Manager's Advice

"Well, I tell you, Mr. Smith, I don't think it pays to fool with inferior mixtures. If I were you I'd use Polarine. There's a good high quality oil that'll keep your car smooth-running and powerful. Regulated properly, it's the right oil for any car."

"You see Polarine puts an oil film between your cylinder walls and your piston heads which keeps every bit of power right behind the pistons."

"No, indeed—Polarine never breaks down when the motor gets hot. It keeps its body at the highest cylinder heat—and it protects your bearings and all moving parts against wear."

Polarine is always uniform and dependable. For sale wherever you see the red, white, and blue SoCony sign.
